

Accompanying document for repairs

Dear customer!

You wish to send us a TOX®-component for repair.
To this end, please observe the following procedure:

- 1** Please fill in this form. A repair can be carried out only with this accompanying document!
- 2** Send the filled in form via e-mail to: **repair@tox-de.com** before the dispatch.
- 3** You will then receive the following documents from us via e-mail. Please print them out and use them as follows:
 - a **delivery note** with barcode which you include in the consignment
 - an **address label**, which you attach to the outside of the consignment
- 4** Please also include a **copy of this accompanying document** in the consignment.

Please note that the address label is not a shipping document!

Price-Information

To determine the extent of repair, your TOX®-component must be disassembled and checked. These costs are included in the cost estimate. If no repair is ordered, the following costs are incurred for the preparation of the cost estimate as well as dismantling, cleaning and inspection:

- Flat rates for TOX®-drives:

TOX®-Powerpackage Type 001 – 004:	€ 335,00
TOX®-Powerpackage Type 008 – 015:	€ 413,00
TOX®-Powerpackage Type 030 – 050:	€ 560,00
TOX®-Powerpackage Type 075 – 200:	€ 782,00

TOX®-ElectricDrive Type 002 – 030:	€ 257,00
TOX®-ElectricDrive Type 055 – 200:	€ 335,00
TOX®-ElectricDrive Type 240 –1000:	€ 670,00

- The costs for making a estimate for the repair of other TOX®-components (e.g. control systems, process monitoring, etc.) are calculated according to actual expenses.
